Weather permitting; the reconstruction of Rock Creek Road from Porter Avenue to Queenston Avenue will begin on January 4, 2010. Construction is expected to be complete by September 2010. The contractor, Haskell Lemon Construction of Oklahoma City will begin work by closing Rock Creek Road from Sequoyah Trail to Wildwood Lane in order to build a new box culvert at the creek crossing. Signs will be placed to detour the traveling public around the construction using Tecumseh Road. Additional questions may be directed to the City of Norman Capital Projects Engineer, John Clink, at 366-5424
